PROFESSIONAL SUMMARY

Third-year Diploma in Computer Science student at Thika Technical Training Institute with hands-on experience in software development, databases, networking and Linux, gained through projects and a 2026 industrial attachment. Builds functional applications, solves technical problems, and is growing into full-stack web development.

EDUCATION

Diploma in Computer Science — **Expected 2028**
Thika Technical Training Institute

Relevant coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Web Development

Githumu High School — **2019 – 2023**
Secondary education

EXPERIENCE

Computer Science Industrial Attachment — **2026**
All Saints Cathedral

- Gained practical experience working with IT systems, networking, troubleshooting and technical problem solving in a professional environment.
- Worked on network troubleshooting, hardware and software support, and Windows administration tasks.
- Applied computer science and networking fundamentals to real-world tasks.

PROJECTS

Student Record Management System | MySQL · C++ · Java

- Built a system that captures student data and stores it automatically in a MySQL database.
- Implemented the core logic in C++ and Java as a class project, with a complete end-to-end record entry and storage flow.

Python Calculator | Python · Git · GitHub — **GitHub**

- Developed a working calculator covering basic arithmetic operations, applying core programming logic and control structures.

Network Diagnostic Toolkit | Python · Networking — **GitHub**

- Built a Python-based toolkit for network diagnostics and troubleshooting, applying practical networking concepts.

Personal Portfolio Website | HTML · CSS · JavaScript · three.js — **GitHub**

- Designed and built a responsive portfolio with a 3D hero, dark and light themes and a CV preview, hosted on GitHub Pages.

TECHNICAL SKILLS

Languages	Python · C++ · Java · JavaScript
Web development	HTML · CSS · JavaScript
Databases	MySQL
Tools & version control	Git · GitHub
Systems & security	Networking · Linux · Cybersecurity · Windows administration
Currently learning	Back-end web development (towards full-stack)
