CAREER OBJECTIVE

Third-year Diploma in Computer Science student at Thika Technical Training Institute seeking an industrial attachment to apply skills in software development and database management while contributing to real-world projects. Keen to grow in full-stack web development.

EDUCATION

Diploma in Computer Science — *Thika Technical Training Institute, Expected Completion 2028*

Relevant coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Web Development

TECHNICAL SKILLS

- Languages: C++, Python, Java
- Web: HTML, CSS
- Databases: MySQL
- Tools: Git, GitHub

PROJECTS

Student Record Management System — *MySQL, C++/Java*

- Built a system that allows users to enter student data, which is automatically recorded and stored in a MySQL database.
- Implemented core logic in C++ and Java as a class project, with a fully working end-to-end record entry and storage flow.

Simple Calculator Application — *C++*

- Developed a working calculator program covering basic arithmetic operations, applying core programming logic and control structures.

Personal Portfolio Website — *HTML, CSS*

- Designed and built a simple personal portfolio website front-end, focused on clean layout and styling.
- Currently expanding skills into back-end development to build full-stack, fully functional websites.

CERTIFICATIONS

None yet — actively self-learning back-end web development.
